

Al's Song

Emma Louise

Quiet as he breaks, shaking in his voice he grew his hair real long
And she has seen its length, she has watched it grow from when it was short

But we all lie, yeah that's what we're known to do
We're all humans in this game, you prove and prove it through
And we all lie, yeah we try and hide the truth
When she climbs on top of you, you feel like you used to, feel like you used to

And hold her while she fakes, footprints on your heart where her head should lay
And crawl into your bed, back into your arms, you're falling back in love

But we all lie, yeah that's what we're known to do
We're all humans in this game, you prove and prove it through
And we all lie, yeah we try and hide the truth
When she climbs on top of you, you feel like you used to, feel like you used to
