

# What Are You Waiting For

Emmelie de Forest

The sidewalk is empty  
We're standing all alone here  
The street light casts a glow on your face

I wish I was so much braver  
Maybe if you were braver too  
This would all be up to you

What are you waiting for?  
Why don't you move in closer?  
What are you waiting for?  
Don't leave me standing on my own

You're making me insecure  
Prove me wrong and win me over  
What are you waiting for?

It's raining  
I'm aching for you as my shelter  
Take me in and keep me safe

I guess I want you 'cause I can't have you  
Who decided all these rules  
When it's only up to you?

What are you waiting for?  
Why don't you move in closer?  
What are you waiting for?  
Don't leave me standing on my own

You're making me insecure  
Prove me wrong and win me over  
What are you waiting for?

Here I go again  
This is where I stand, yeah  
There is nothing you can lose

What are you waiting for?  
Why don't you move in closer?  
What are you waiting for?  
Don't leave me standing on my own

You're making me insecure  
Prove me wrong and win me over  
What are you waiting for?

What are you waiting for?  
Why don't you move in closer?  
What are you waiting for?  
Don't leave me standing on my own

You're making me insecure  
Prove me wrong and win me over  
What are you waiting for?

It's raining

I'm aching for you as my shelter  
Take me in and keep me safe
