

Beyond the Great Divide

Emmylou Harris

There'll be greener pastures
Across that border line
We'll see new horizons, my darlin'
Far beyond the great divide

Pools of clear blue waters
Star light in the sky
You'll be mine forever my darlin'
Far beyond the great divide

Somewhere in the distance
Northern lights will shine
You'll be there beside me my darlin'
Far beyond the great divide
You'll be mine forever my darlin'
Far beyond the great divide
