## **Beyond the Great Divide**

## **Emmylou Harris**

There'll be greener pastures Across that border line We'll see new horizons, my darlin' Far beyond the great divide

Pools of clear blue waters Star light in the sky You'll be mine forever my darlin' Far beyond the great divide

Somewhere in the distance Northern lights will shine You'll be there beside me my darlin' Far beyond the great divide You'll be mine forever my darlin' Far beyond the great divide
