

Everytime You Leave

Emmylou Harris

Every time you leave
You tear the soul from me
I die a little more
Each time part

I can't control my dreams
My heart can't seem to learn
To turn and lock its door
When you return

I know that you'll come back again
As soon as you get blue
And I know what will happen then
One kiss and I'll give in to you

Every time you leave
You tear the soul from me
But I want to live so I'll forgive
Every time you leave

Every time you leave
You tear the soul from me
But I want to live so I'll forgive
Every time you leave
