## **Six White Cadillacs**

## **Emmylou Harris**

Workin' hard all my life Always tried to get it right Every day and every night Hey hey hey carry me home

Singin' in a honky tonk People dancin' getting drunk Never knowin' what I want Hey hey hey carry me home

I just want a little Give me just a little Just a little peace of mind Can't somebody tell me

Please somebody tell me Hoe long does this road unwind

Six white Cadillacs Crossin' on the railroad track Angels in the front and back Hy hey hey carry me home

Way over yonder We won't have to wander anymore
