

## Sweet Dreams of You

Emmylou Harris

Lonely tears roll down  
As midnight comes around  
But I can make it through  
In sweet dreams of you

In the shadow of the night  
I still hold you tight  
Yes, it all comes true  
In sweet dreams of you

In sweet dreams I see  
The way things used to be  
When your love was mine  
And your heart was true  
In sweet dreams of you

Oh, I call out your name  
And you come to me again  
The way you used to do  
In sweet dreams of you

In sweet dreams of you  
In sweet dreams of you
