

## Louder Than Love

Emphatic

Sitting here in a hotel room  
with your picture by the bed  
The one we took sunday afternoon the week before I left  
Your smile gets me through the day when I'm feeling all alone  
Sometimes its the only strength I find out here so far from home...

I miss you,  
Oh God I miss you

But even in the silence  
I can hear it like its every angel singing above  
What we've got is louder than love  
And even when Im gone I can hear it like a song,  
Like a melody that makes us one,  
What we've got is louder than love...  
Louder than love

Oh you look just like your mom back when she was young  
A pretty face beautiful eyes  
You are my heart till the end of time so here's a kiss from a thousand miles  
Turn out the lights and say goodnight  
I miss you  
Oh God I miss you

But even in the silence I can hear it like its every angel singing above  
What we've got is louder than love  
And even when I'm gone I can hear it like a song like a melody that makes us one  
What we've got is louder than love

No matter where I am,  
No matter what I do,  
I will always be with you
