

Quicksand

Emphatic

Your violence calls my name
Whispers in my ear
The sirens from our past
Keep holding me back
You're tempting me again
You're haunting my sleep
There's no where to hide
I thought I buried you alive
I need to...

Tear away
Tear away
Before I sink in
Every step I take with you
Is like walking on quicksand
Tear away
Tear away
Before I sink in
Every breath I take with you
I get closer to the end

I won't let you change me again
Reflections remind me who I am
Remnants of who we use to be
Keep trying to kill me
I know I found my soul
But your skeleton wings surround me and the danger won't let go
As you try to pull me in
I need to...

Tear away
Tear away
Before I sink in
Every step I take with you
It's like walking on quicksand
Tear away
Tear away
Before I sink in
Every breath I take with you
I get closer... closer to the end.
