

Remember Me

Emphatic

The dust will rise
As I leave you far behind
You're a stranded soul
Paralyzed, lost and cold
You were outta control
No there's nowhere to go
Stop tryin to hold on
You're a memory
You don't exist
Before you drop dead think about us

Remember me when you're all alone
Remember I told you so
And when the stitches don't hold and you start to be bleed
Remember me

The feelings dead
Just like every word you said
Don't apologize 'cause I'm better of this time
You were outta control
No there's nowhere to go
Stop tryin to hold on
You're a memory
You don't exist
Before you drop dead think about us

Remember me when you're all alone
Remember I told you so
And when the stitches don't hold and you start to be bleed
Remember me

Remember me when you're all alone
Remember I told you so
And when the stitches don't hold and you start to be bleed

Remember me
Remember me
Remember me
Remember me
