## Empire of the Sun

I don't wanna be so complicated  
I wish it was new  
Down in a new river  
I just want the fire  
In my heart above it  
And I wanna see  
A simple new life

I wanna go  
I just wanna ride with you  
'Cause then I know I'll be by your side  
With you tonight

I live in this world that I created  
I did it for you  
I wish to be your love and save you  
I tried to turn back the time  
I've got to reach against the ages  
And now I realise  
You were the one I always run to  
O, darling

I... I'd rather think it's time we go  
Oh, I'll let it go

I don't know myself  
When you are not around  
I won't realise  
All I got until it's gone  
Just let the fire, fire burn  
O, darling

With you  
Oh why is it so newer beside (with you)  
With you for all the lies (with you tonight)  
Tonight
