

## Disarm

## Empire of the Sun

The army yearns, come on dance  
Push it just enough  
Ancient parts, distant bloods  
Take a chance my love  
If I'll run pass the rocks to a wonderful  
Piece of love like they can  
Spirit up above

Way beyond the cliff tops  
When it meets the blue we will see  
Just beyond her skin  
Where you might be

Disarm now  
Disarm the armies and people stop  
Just like disco  
Being a superstar

All define secret get  
They still passed it low  
The audience stop and dance as they looked around

Way beyond the cliff tops  
When it meets the blue we will see  
Just beyond her skin  
Where you might be

Disarm now  
Disarm the armies and people stop  
Just like disco  
Being a superstar

It's the night  
I wanna kill the light  
Just go easy now  
I don't her playing around  
Oh just go now go, baby go now  
Don't waste another, yea never worry  
Oh just go now go, baby go now  
Just go now

Disarm now  
Disarm the armies and people stop  
Just like disco  
Being a superstar
