

Ice on the Dune

Empire of the Sun

When I was young I found
Imagine what I saw
A secret underground
It changed the way I see
I lost the child inside
He ran away from me

I've been reaching all out, darling
And I can operate now
So I offer my love
To turn 'round and change

Ooh, let's go running away
We can always be together
Ooh, let's go running away
We can last forever
Ooh, let's go meet up again
Just like the ice on the dune
Ooh, let's go running away
Run away

I know a hidden town
It's high above the clouds
A special place to be
Where there's unity

I've been reaching all out for something
Make a home there forever
So I offer my love
To turn 'round and change

Ooh, let's go running away
We can always be together
Ooh, let's go running away
We can last forever
Ooh, let's go meet up again
Just like the ice on the dune
Ooh, let's go running away
Run away

Run away, run away, run away
Oh, we can run away
Run away, run away, run away
Oh, we can run away

Ooh, let's go running away
We can always be together
Ooh, let's go running away
We can last forever
Ooh, let's go meet up again
Just like the ice on the dune
Ooh, let's go running away
Run away
