

Can't Steal Your Heart Away

Empires

You can have your party
In your momma's garage
Laughing and drinking
In a nice mirage
With bowie in the background
Crying over girls
Somehow I'm playing
In your made up world

Hey
Can't take your heart away from me
Hey hey hey
I've got control of everything
Hey
Can't steal your heart away from me
Hey hey hey
You lost control of everything

If you don't love me
You better learn
Quit being so dramatic
And invite the burn

With bowie in the background
Crying over girls
Except that I ain't lonely
In your pretty world

Nothing that you can do
Watch my eyes rewind you
Everything you have I take
