

# Hitchhiker

Empires

I keep forgetting every night and day  
Every last minute every way  
Looking out looking out  
From a car window  
I forget everything I know

On a howling road  
On a howling road

I keep on looking for familiar eyes  
I wish for someone I can recognize  
There's a hole in my heart like a wishing well  
I've think it's dry as far as I can tell

On a howling road  
On a howling road

I found a pretty soul?  
Hitchhiking on the howling round  
She says

I don't know the way  
Won't you lead me on  
I don't know your name  
But won't you turn me on  
I don't know the way

Won't you lead me on  
I don't know your name  
But won't you turn me on

Now you got me and you know you do  
You got me real fascinating move  
Where you're coming from  
Don't think I've ever seen  
And now you're showing your whole world to me

On a howling road  
On a howling road

I found a pretty soul  
Hitchhiking on the howling road

I don't know the way  
Won't you lead me on  
I don't know your name  
But won't you turn me on  
I don't know the way  
Won't you lead me on  
I don't know your name  
But won't you turn me on
