

Stunned in your room
Violet faced, but I can't help but to be here
Dark, over you, appear shadow trailing with the dim stare

I'm of the worst intention
Here by default in hangin'
What could have ever happened
Moment of love is lost in your thinkin'

Tangled and tired of the ones that desire you
The moment I wanted, took what I gave you
And you had it fast
In the morning pay

I'm of the worst intention
Here by default in hangin'
What could have ever happened
Moment of us is lost in your thinkin'

I've got to wish you on your way
Wish you on your way

Hope on your time

I've got to wish you on your way
Wish you on your way
I've got to wish you on your way

Hope on your time
