

A New World

Empty Tremor

Listen our words!
We need a new world!
Listen our words!
We need a new world!

Thousand of us are now screaming out loud
trying to explain what we're thinking about
we know what we can reach and we won't stop
we need your voice to get right to the top

stand up!
We can be strong!
Stand up!
And sing this song!

We all just want a good future for all
we all just want to work for peace and love
our voices are all around this tired world
and we need your voice cause we want to be heard

stand up!
We can be strong!
Stand up!
And sing this song!

You can't stay out of this war
just take a look at this world
anger and pain
everywhere
join us and sing this out loud

listen our words!
We need a new world!
Listen our words!
We need a new world!

Stand up!
We can be strong!
Stand up!
And sing this song!

You can't stay out of this war
just take a look at this world
anger and pain
everywhere
join us and sing this out loud

Listen our words!
Listen!

This war will end soon!
It's just a matter of time
this war will end soon!
It's just a matter of time
