

## Just For Today

Empty Tremor

I'm hearing your voice  
and I'm turning around  
when I feel that you're nearer  
but awaking I know it's been  
just the same dream  
I need you closer now  
and I'll walk on by  
'til your light will shine  
now I'm here  
and I'm standing down  
spending my life away  
spending my life away  
How it's hard to believe  
that everything leaves  
a very deep sign  
now that I won't see  
your beaming smile  
I need you closer now  
and I'll walk on by  
'till your light will shine  
now I'm here  
and I'm standing down  
spending my life away  
spending my life  
Now I will be there  
to find out your falling star  
I will be there  
to find out your falling star  
don't fade away  
just for today  
let me stay  
Now I see the falling stars  
through my hands  
waiting there for me  
I see the falling stars  
through my hands  
whisper that to me  
sail away  
from your life  
close to my eyes  
let me say  
sail away  
let me ease your fever now  
please leave your pain  
don't fade away  
just for today  
don't fade away  
'cause now  
it's the time to be as one
