

The Alien Inside

Empty Tremor

Listen!
I am right here
I am the prince of your fears

I know
just how you feel
I can control all your tears

just leave my brain!
Please! Just leave my brain!
Please! Just leave my brain!
Please go away!
Please! Just go away now!
Please! Just go away now!
Oh Please!

Relax
don't be afraid
everything stays the same

my friend
prepare yourself
it's time to meet once again

just leave my brain!
Please! Just leave my brain!
Please! Just leave my brain!
Please go away!
Please! Just go away now!
Please! Just go away now!
Oh Please!

The alien inside takes control of our brain
living in our mind is going to rule once again
we can't stop this pain!

Relax!
We can be friends
I'm the dark side of your mind

if you
just close your eyes
I'm very easy to find

Just leave my brain!
Please! Just leave my brain!
Please! Just leave my brain!
Please go away!
Please! Just go away now!
Please! Just go away now!
Oh Please!

The alien inside takes control of our brain
living in our mind is going to rule once again
we can't stop this pain!
No! Go away!

I will resist
I'll be strong
I will be free
from your control

I will go on
with my life
you won't have me!
No! I will not fall!

I will resist
I'll be strong
I will be free!

I will go on
with my life
you won't have me!
No! No! No! No!
No! You won't have me!

Can't you see
your lonely life?
You're alone!
I have been your only friend
in this world

can't you see
your empty life?
They have gone!
I will be
your only friend
in this world

I'm the one you've been feeding for
all these years
I have always been drinking
your tears

now it's time for you to understand
what is real
now you know who I'm

the alien inside!
The alien inside!
The alien inside!
The alien inside!

I am the one you have been
hiding for all
these years

the only one who loves you
you know I am
the alien inside

I'll trace the path of your life
you'd better trust my words

the only one who loves you
you know I am
the alien inside
