

Who You Really Are

Empty Tremor

You always thought to be the best
you always thought to be on top
you've never look at them in the face
you turned around and walked away

you'd better realize
exactly who you are

If you don't change your life
you know you won't get far!

Your kingdom will not last forever
one day your world will let you down

you'd better listen to my words

you know that
you'd better
listen to
what I say

if you just close your eyes
you will find so much love deep inside of you
if you just look inside
you will find out who you really are!

You lived life as an easy game
which could be played everyday
you never slowed down for a while
just think about your lonely life

one day you'll face the truth
will you be brave enough?

One day you'll be alone
will you be strong enough?

Your kingdom will not last forever
one day your world will let you down
You'd better listen to my words

you know that
you'd better
listen to
what I say

if you just close your eyes
you will find so much love deep inside of you
if you just look inside
you will find out who you really are!

You don't have to be afraid
you should find some good friends
they will help you to see
all your faults and mistakes
you know it's your last chance
oh yea!

If you just close your eyes
you will find so much love deep inside of you
if you just look inside
you will find who you really are!
You are!
You are!
You are!
