

# Goodbye

Empyr

Your innocence is gone,  
I dont know where,  
But it's quite far from here now.  
What is my new home?  
Before it used to be your soul.  
It used to be your soul.

Now I'm lost in an empty space,  
And trapped in my memories,  
And everything's falling apart.  
I taught you how to swim.  
I'm drowning now into a pure night.

Can I, Can I say goodbye?  
So I can start breathing.. Goodbye.

You're rolling like a dice,  
I can see cameras playing with your life.  
Your wings are on fire,  
I wonder how high you can fly.

Now I'm lost in an empty space,  
And trapped in my memories,  
And everything's falling apart.  
I taught you how to swim.  
I'm drowning now into a pure night.

Can I, Can I say goodbye?  
So I can start breathing..  
Can I, Can I join the stars?  
So I can start smiling.. Goodbye.

Goodbye, Goodbye!

Can I say goodbye?  
So I can start breathing..  
Can I, Can I join the stars?  
So I can start smiling.. Goodbye.
