

It's gonna be

Empyr

It's gonna be good
It's gonna be crazy
It's gonna be wild
And it's gonna get harder
It's gonna be hard
It's gonna be something
Something about you
Something about your dreams
It's all about

I'm so happy
I'm just crazy
I don't know why I

It's gonna be real
It's gonna get closer
It starts with your dreams
And it ends with a fever
It's all about you
In a different color
It's gonna be true
It just feels like summer
It's all about

I, I don't know why you
You make me better
I don't know how but
I'm happy now

I'm so happy
I'm just crazy
I don't know why I

It's gonna be wild
It's gonna get crazy
It's gonna be pure
And it's gonna feel louder
It's got to be now
We've got to start something
Something about faith
Something about you
And it's gonna be

I, I don't know why you
You make me better
I don't know how but
I'm happy now
I, I don't know why you
You make me better
I don't know how but
I'm happy now
Yeah, I'm happy now
I'm happy now
Yeah, I'm happy now
I'm happy now
