My own short news item

Empyr

Violent thoughts flash across my mind
My bestman ruined my wedding night
How coulds you take this special night from me
spreading lies and sowing pain
if this is all i've left to you
then i accept the fate you have for me

I'm dying for you now (i'm sorry, i'm sorry now)
I'm bleeding on the ground (you're sorry, you're sorry now)
i'm crying for you now (i'm sorry, i'm sorry now)
do you like the way it sounds
then please accept my pain
will it heal the wounds i made

dive with me to the other side
dive with me into the night
you know it's time for us say goodbye
whatever you say, i am
as guilty as i'm innocent
it's you and me together in the end

I'm dying for you now (i'm sorry, i'm sorry now)
I'm bleeding on the ground (you're sorry, you're sorry now)
i'm crying for you now (i'm sorry, i'm sorry now)
do you like the way it sounds
then please accept my pain
will it heal the wounds i made

i kiss your eyes and cry
the ring shines in your mouth
i kiss your eyes and cry
you know i loved you
