

Say It

Empyr

Try me, try me
You're trapped between my lips
My skin against your skin

Please don't resist
It's just a wasted time
Just leave the doubt behind

Give me yourself to me
Say it, say it, say it, say it
Now that you put your trust
In me

Do you understand
I'm just like you
The pride you claim
I'm just like you
Is just a shame
I'm just like you
You try to hide
I'm just like you
Yeah
