

I wanna be your veins  
When your heart is beating fast  
I wanna be inside

I wanna be your mouth  
When you are faking smiles  
I know it hurts this time

Everything is changing now  
Everything's freezing  
We don't have the time to waste  
Tell me if I'm right or wrong  
I'll give you everything  
But whatever I try  
In the end we still are...

Just a car crash  
On some black ice  
And the shattered glass in your eyes  
Everything just breaks apart  
Everything goes dark without  
My ray of burning light

Everything is spinning now  
Everything's coming down  
We've got no time to waste  
Tell me if I'm right or wrong  
I'll give you all my blood  
But whatever I try  
In the end we still here...

In a car crash  
On some black ice  
And the shattered glass in your eyes  
Everything just breaks apart  
Everything is cold and dark  
When you are not by my side  
A souvenir from heaven  
My ray of burning light

Don't wanna hurt you  
Don't wanna hurt you!

Tell me if I'm right or wrong (don't wanna)  
I'll give you everything (hurt you)  
Don't wanna hurt you  
Tell me if I'm right or wrong  
I'll give you all my blood  
But whatever I try  
In the end we still here...

In a car crash  
On some black ice  
And the shattered glass in your eyes  
Everything just breaks apart  
Everything is cold and dark  
When you are not by my side

A souvenir from heaven

Everything just breaks apart  
Everything is cold and dark  
When you are not by my side  
My souvenir from heaven  
My ray of burning light

My ray of burning light
