

# Your Skin My Skin

Empyr

I am your new lipstick  
I'm your favorite music  
The one you believe in  
Tattooed under your skin

Come a little closer  
I can take you higher  
I know who you are so

Let me give you the love  
You can buy  
'Cause we are so good together  
We take care of each other  
We fly together  
Now please make it real

I'm the new magic trick  
Made of skin and plastic  
The one you believe in  
Tattooed under your skin

I'm made for hunting fears  
I'm made for holding strings  
I know who you are

So let me give you the love  
You can't buy 'cause  
We are so good together  
We take care of each other  
We fly together  
Now please make it

We are so good together  
We take care of each other  
We fly together  
Now please make it  
Now please make it real

We are so good together  
We take care of each other  
We fly together  
Now please make it

We are so good together  
We take care of each other  
We fly together  
Now please make it real

Your skin, my skin  
Your lips, my lips  
Your skin, my skin  
Your lips, my lips  
Your skin, my skin  
Your lips, my lips  
The way I try  
To reach to neck

'Cause we are so good together  
We take care of each other  
We fly together  
Now please make it  
Now please make it real  
Your skin, my skin  
Your lips, my lips  
The way I try  
To reach to neck
