

Running free

Enbound

Free, I'm running free
Face to face with me
Running free, running free
I'm drifting far away

When pride is falling down and leaving me out
And face to face with this - no breathing sight

I see them moving rapidly away
And follow them into the light

Your recipe to life has changed
A twisted action alter me inside

When faces growing in my skin - no
They're moving rapidly
but I'm running free

...running free
Face to face with me
Running free, running free
I'm drifting far away

When you are falling down
and leaving me here
I'm facing me with new believes, no fear

All demons chasing, hunting me away
They're moving rapidly
but I'm running free

In fear of me

Free, I'm running free
Face to face with me
I'm running free, running free
I'm drifting far away

Free, I'm running free
Face to face with me
