

In Denial

End of Fashion

Oh they're attacking,
Follow them round
There goes my curer,
Swallow her down
We'll suffocate ourselves,
You say I lost my way,
But we'll explain ourselves,
In a language we cannot speak

Right before you said you wanna make it up yourself,
I forgive this time,
I'm lost, we are one,
You and me together in denial

Oh the silence in between sound,
Make the bruises show themselves
Let them light up the way,
Then we'll expose ourselves,
To a nation we cannot say

Right before you said you wanna make it up yourself,
I'll forgive this time,
I'm lost, we are one,
You and me together in denial

Right before you said you wanna make it up yourself,
I forgive this time,
I'm lost, we are one,
You and me together in denial

Right before you said you wanna make it up yourself,
I forgive this time,
I'm lost, we are one,
You and me together in denial
You and me together in denial
