

## Dead City Lights

End of Green

Down with the city lights  
Burning hearts with grief  
So many times I crawled on this way  
There's a pain in sight  
Everyone's insane  
Same old town and nothing remains  
Damn the city lights  
Burning all you freaks so many times I walked on this way  
You're all insane  
You can never hide the pain tonight  
Fellows on my side, together we will feed on their blood  
Fuck this place up  
Damn those city lights  
All the hearts we break, all the moments we fake, the deadline  
will be our enemy  
Now the mourning awakes, all the souls that we take the dayligh  
t will be our enemy
