

Speed My Drug

End of Green

Same old pain, same old desire.
Reach my veins, it burns like fire.
That's what I wanna be - my own worst enemy,
Sihundredsixtysix more ways to bleed, thats what my life should
be,
My worthless enemy sihundredsixtysix more ways to bleed.
Speed my drug all day and night long, speed me up with all the
days gone...
Hello dark days, goodbye light.
Spit it out, my mournful life.
Thats what what I wanna be - my own worst enemy sixhundredsixty
six more ways to bleed,
That's what my life should be - my worthless enemy,
Sixhundredsixtysix more ways to bleed.
Show me the days addiction's gone.
Chemicals give me back control.
Another pill inside my mind.
This is the day, prepare to die.
