

You're moving between  
Time and space  
Deceiving me  
Your lack of time  
Rays of light  
Something between

Knock yourself out  
Get your keys  
From another me  
Build your alibis  
In every you  
There's is me

Feel my rage  
Just Stay away  
Getaway  
Return my life intact  
I want it back

Are you loaded again  
Fooling around or here to stay  
Violating truce  
It's your way of sinking me

Welcome  
Choose wise  
Good bye  
No one  
Could die  
More than I
