

All Night

Endeverafter

Come over baby drive me crazy, keep me up all night.
I throw the party, you're the only girl who caught my eye.
So lets you and me escape upon tippy toes,
And find a dark secluded place for us to go.
I'm in the, mood baby won't you take off your clothes?
Let's keep this a secret, only you and I have to know!

I wanna be the only one who gets to come inside.
(All night, all night)
The only one who gives you some and makes you feel alright.
(All night, all night)

Oh pretty baby we just made the wrong decision right.
Let's put our clothes on, lets get back into the party life.
It was good for me and by the look on your face,
You had fun, makin' another drunken mistake,
And you say "I've never really done this kind of-a thing, you've
e gotta believe me, oh I just had to much to drink."

I wanna be the only one who gets to come inside.
(All night, all night)
The only one who gives you some and makes you feel alright.
(All night, all night)

Let's keep this a secret, only you and I have to know!
I wanna be the only one who gets to come inside.
(All night, all night)
The only one who gives you some and makes you feel alright.
(All night, all night)
Oh baby baby won't you let me let me come inside?
(All night, all night)
The only one who gets to feel you wrapped around me tight.
(All night, all night)
I wanna be the only one who gets to come inside.
(All night, all night)
The only one who gets to feel you wrapped around me Tight
Alright, alright. Oh!
