

# Healed

## Endless Blue

Conning me  
It's just the way you get me singing  
And I start to fall back into you  
I lie in bed and wonder if you're thinking  
Of me at all

Just as I felt it  
It came so strong from moving on  
Without you along  
And just to know you're near  
I can't help knowing this is wrong  
But you turn me on

You can see  
I started off this new life without you  
Didn't miss a thing  
Suddenly, I hear your voice and wonder about you  
I question everything

Reality, I got to keep my head on focus  
And let you go  
Forget you came  
Stop wondering what could be between us  
Don't play the game

And just as I felt it  
It came so strong from moving on  
Without you along  
And just to know you're near  
I can't help knowing this is wrong  
But you turn me on

And just as I felt it  
It came so strong from moving on  
Without you along  
And just to know you're near  
I can't help knowing this is wrong  
But you turn me on

Memory, oh that's just the way I need you to leave this  
You had to know  
Just a dream  
Thinking about one last kiss  
Then let me go

And just as I felt it  
It came so strong from moving on  
Without you along  
And just to know you're near  
I can't help knowing this is wrong  
But you turn me on

And when with him  
He makes me a happy person  
And I love him so  
I didn't mean to lose all that spark and passion  
When I let you go

When I let you go
