

# History

## Endless Blue

Here we are in place  
Staring face to face  
Awkward arms embrace  
A little taste of history  
Clothes are on the floor  
We've been through this before  
Know just what's in store  
A little more of history

And if you want to keep me  
You'd better hold on tight  
Don't look ahead too far now  
Let's make it through the night  
And when you can't release me  
Your vacant eyes will stray  
A bitter observation  
Well I'm better off this way

Walking down the street  
My heart is in my feet  
Wondering when we'll meet  
We can't repeat our history  
Reaching for the phone  
I can't leave this alone  
The past few days have shown  
We should have known our history

And if you want to keep me  
You'd better hold on tight  
Don't look ahead too far now  
Let's make it through the night  
And when you can't release me  
Your vacant eyes will stray  
A bitter observation  
Well I'm better off this way  
Better off this way  
I'm better off this way  
Better off this way  
I'm better off this way

If you want to keep me  
Hold on tight  
No regrets  
Just make it through the night

But I'm better off this way

And if you want to keep me  
You'd better hold on tight  
Don't look ahead too far now  
Let's make it through the night  
And when you can't release me  
Your vacant eyes will stray  
A bitter observation  
Well I'm better off this way

And if you want to keep me

You'd better hold on tight  
Don't look ahead too far now  
Let's make it through the night  
And when you can't release me  
My hapless eyes will stray  
A bitter observation  
Well I'm better off this way
