

20 Years

Endless Struggle

Pretentious f**king assholes
Too cool for the scene
20 years since they lived hard
Old washed up and f**king clean
No sense of what's going on
The only feeling is greed
With a big label on there side
And there ego's they must feed

[chorus:]

Now you say your doing it doing for the kids
But we see right through right through your f**king lies
Live your life the way you want, but don't you preach to me
I may get old and out of it, but my roots i'll always keep
Punk will never die no punk will never die
Punk will never die no punk will never die

Don't tell me that we are too young
Don't tell me how it used to be
Through the years it doesn't change
You gotta keep rebellion on the streets
Don't tell me that punk is dead
Don't tell what it used to be
If there's one thing that i know
Its that real punk will never die

[chorus:]

Now you say your doing it doing for the kids
But we see right through right through your f**king lies
Live your life the way you want, but don't you preach to me
I may get old and out of it, but my roots i'll always keep
Punk will never die no punk will never die
Punk will never die no punk will never die
