

Coming Back Around

Endless Struggle

I woke up today feeling like shit
My head is pounding, still not used to it
I've gotta find a way to push it all aside
Hit the bottle, she's always by my side

[chorus:]

I may be down, but i'm not out
I'm coming around for another shot
Just wait till you can see what I can do

You hear people say you gotta cut back
30's around the corner pick up the slack
You say to yourself i'll be alright
Lets get the boys together lets go out tonight

[chorus:]

I may be down, but i'm not out
I'm coming around for another shot
Just wait till you can see what I can do

This place is so lonely we said forever
Where are you now, no where to be found
The wrinkles on my face, i look a disgrace
I think to myself, i've gotta get out of this place
This cannot be for real how does it feel
You look around and your screwed blue and tattooed

[chorus:]

I may be down, but i'm not out
I'm coming around for another shot
Just wait till you can see what I can do
