

## Remember Us

Endo

Alone with my thoughts  
Memories I'm with you  
Are moments with God  
Days that were so true  
Now fall into pain  
Reason escapes me  
I'm only to blame  
I can't see without you  
Without you

Remember us  
Remember us  
Always forever us  
Forever us  
Do you remember us  
Remember us

Seeing you now  
Alone and without me  
I've suffered somehow  
I can't see through me  
I'm only in pain  
So lost without you  
Alone and in shame  
I can't see through you  
Without you

Remember us  
Remember us  
Always forever us  
Forever us  
Do you remember us  
Remember us

A mirror in your eyes  
Remembering our lives  
A mirror in your eyes  
I remember

Remember us  
Remember us  
Always forever us  
Forever us  
Do you remember us  
Remember us
