

## The Getaway

Endo

My decision is made  
I got no time to fake this  
I'm leaving the world behind me  
I got no time to take this  
No

I don't believe this  
You don't see it  
Always bleeding  
You're going down  
You got you got you got  
The getaway  
When times are rough we need to break away  
You got you got you got  
The getaway  
When times are rough we need to break away

As I search  
For the answers deep in my mind  
As I break into something  
Something new something real  
In your face make you taste as I come  
From this world of strife  
Feel the pain of life yet I still breathe  
You got no choice but to feed  
Motherf\*\*king greed

I don't believe this  
You don't see it  
Always bleeding  
You're going down  
You got you got you got  
The getaway  
When times are rough we need to break away  
You got you got you got  
The getaway  
When times are rough we need to break away

Get the f\*\*k away
