

## Roll The Dice

Enforcer

I'm going down the road just living for the day  
Since I rolled the dice there ain't no other way  
Thrills and excitement it fills me with delight  
Look out for me, I strike tonight!

Awake the lust to love, awake the lust to kill  
I make another throw and you law becomes my will  
There must be ways to roll to take me even higher  
There must be ways to reach the burning fire

Out in the night on my own  
Found myself playing a game  
Living to win, living to lose  
Come on and let go  
Roll the dice!

Trapped by the power, the power of its will  
My only exit is for my own blood to spill  
I have no chance to run, I have no chance to hide  
Got a pact with evil and the devil by my side

Out in the night on my own  
Found myself playing a game  
Living to win, living to lose  
Come on and let go  
Roll the dice!
