## **Roll The Dice**

**Enforcer** 

I'm going down the road just living for the day Since I rolled the dice there ain't no other way Thrills and excitement it fills me with delight Look out for me, I strike tonight!

Awake the lust to love, awake the lust to kill I make another throw and you law becomes my will There must be ways to roll to take me even higher There must be ways to reach the burning fire

Out in the night on my own
Found myself playing a game
Living to win, living to lose
Come on and let go
Roll the dice!

Trapped by the power, the power of its will My only exit is for my own blood to spill I have no chance to run, I have no chance to hide Got a pact with evil and the devil by my side

Out in the night on my own Found myself playing a game Living to win, living to lose Come on and let go Roll the dice!
