

## End of days

Engel

First off, you should know one thing  
I don't care what you think of me  
There is just these words for you  
It is all that I have to do

I have never felt so free before  
And I still believe that I will find some more of my  
Revenge, oh so dear to me  
There is not much left to say

You thought that it was time  
But I will stay alive  
Showing you till the end of days

I will always be more than you  
And I know you'll never win  
I'm stronger than I ever was  
You have lost

No, there is nothing left for you  
You did not break through

You thought that it was time  
But I will stay alive  
Showing you till the end of days  
You thought that it was time  
I will stay alive  
You will not be the end of me

Somewhere I feel the pain left inside  
Which reminds me of what you've think you've done  
Let the burning feeling transfer back to you  
See the light at the end where you  
Beg for mercy

You thought that it was time  
But I will stay alive  
Showing you till the end of days  
You thought that it was time  
I will stay alive  
You will not be the end of me

Of me
