

## Until Eternity Ends

Engel

We never thought that we were going down  
Things just started falling  
No straws to grip, no path to run  
We were getting stuck

When we saw an opening we started to run  
Took that chance to get away  
No straws to grip, no path to run  
We were getting stuck

'Til the skies are dry as dust  
The great forever losing touch  
This will have to last, last forever

'Til we drown in loneliness  
Awaiting our deliverance  
This will have to last, last forever  
(Until eternity ends!)

Nothing's gonna change  
You know it stays the same  
You know they are telling us  
You've got to fall in line  
To see the real true crime

You know they are killing us  
We are running away, further away  
So that we might make it  
Every time they say  
Nothing's gonna change

You know they are killing us

'Til the skies are dry as dust  
The great forever losing touch  
This will have to last, last forever

'Til we drown in loneliness  
Awaiting our deliverance  
This will have to last, last forever  
(Until eternity ends!)
