

# Follow my heartbeat

Engelbert Humperdinck

Penny in a wishing well  
And made a wish for me  
Than I threw in another one  
Just in case it might take two  
I'm closing my eyes and concentrating  
Tell my pact and leave  
I'm sending my love to you baby  
Till you get the message from me

Just come a, come a, come a little closer baby  
With every single step you take  
To the end of the rainbow  
On a yellow bricked road  
And see what kind of magic we make

Follow, follow, follow my heartbeat  
Follow, follow, follow my love  
Follow, follow, follow my heartbeat  
Follow, follow, follow my love

I got your number in my rollerdex baby  
Underlined your name in red  
I hope you're feeling every love beat  
I'm giving you the go ahead

So come a, come a, come a little closer baby  
With every single step you take  
To the end of the rainbow  
On a yellow bricked road  
And see what kind of magic we make

Follow, follow, follow my heartbeat  
Follow, follow, follow my love  
Follow, follow, follow my heartbeat  
Follow, follow, follow my love

Follow, follow, follow my heartbeat  
Follow, follow, follow my love  
Follow, follow, follow my heartbeat  
Follow, follow, follow my love

So come a, come a, come a little closer baby  
With every single step you take  
To the end of the rainbow  
On a yellow bricked road  
And see what kind of magic we make

Follow, follow, follow my heartbeat  
Follow, follow, follow my love  
Follow, follow, follow my heartbeat  
Follow, follow, follow my love  
Follow, follow, follow my heartbeat  
Follow, follow, follow my love  
Follow, follow, follow my heartbeat  
Follow, follow, follow my love
