

Three Little Words (I Love You)

Engelbert Humperdinck

When love is far away
everyday seems longer
And as I write to you today
My love grows stronger

I'm gonna let you know
what I've been thinking
And hope that you will come to me
You'll be willing

I'm gonna send my love today
Write to you and say
The three little words : I love you

I'm gonna send one tender kiss
To your tender lips
With three little words : I love you
