

## Three Little Words (I Love You)

Engelbert Humperdinck

When love is far away  
everyday seems longer  
And as I write to you today  
My love grows stronger

I'm gonna let you know  
what I've been thinking  
And hope that you will come to me  
You'll be willing

I'm gonna send my love today  
Write to you and say  
The three little words : I love you

I'm gonna send one tender kiss  
To your tender lips  
With three little words : I love you
