

When There's No You

Engelbert Humperdinck

I walk along an empty street
And night becomes another dawn
It's only heartaches that I meet
And tears that tell me you have gone from me

Is it hard to see that my heart is breaking
It was yours for the taking
You said we're through
What can I do when there's no you

This kind of loneliness I found
Has taken over in my mind
And it will always be around
For love like ours, I'll never find, I know

Did you have to go cause my heart is breaking
It was yours for the taking
You said we're through
What can I do when there's no you

My heart is breaking
It was yours for the taking
You said we're through
What can I do when there's no you
