

## Let's Just See

Engineers

I'm dropping out of time  
Blown where the wind goes  
There's nothing i won't do

There's nothing i won't say  
Whether we win or lose  
Don't drop a single line

Let's just see how far we can go  
Let's just see how far it is

Tried to reverse my pride  
All those many miles home  
There's nowhere i can't leave

There's nowhere i can't leave  
Don't wait to hear the news  
No way that i can stay

Let's just see how far we can go  
Let's just see how far it is

Let's just see how far we can go  
Let's just see how far it is

Let's just see how far it is  
Let's just see how far we can go

Let's just see how far we can go  
Let's just see how far it is
