

## Song For Andy

Engineers

Just before we left  
I thought that everything was clear  
nothing left to chance  
without a single breath  
you're taking pills to help you feel  
can't see sense in that

You keep landing on your feet Andy  
you've been lying back to me Andy  
can you live beyond your means Andy  
(I've seen you dying on your feet Andy)  
let's go our separate ways

Now I'm facing facts  
and now everything is clear  
no pattern left to patch  
I have nothing left  
you've taken everything but me  
you see sense in that
