

# We Are One

Ennio Morricone

I will bring the sun through darkened clouds  
And I will live with you rainbows for your eyes  
Rainbows for your eyes

Now, my love, we are one  
We are one  
We are one, cried my love  
Let me lead you where the moonlit waters fall  
Shadows softly call  
My love, we are one  
We are one  
We are one, cried my love  
Let me lead you where the stillness of the night  
Delivered dawn's first light  
My love, we are one  
We are one  
We are one  
We are one
