

# Ahti

Ensiferum

At the time of sundown  
Nature bathes in colours  
In silence it waits  
For the approaching force  
In the halls of Ainola  
The true king of dark waters  
Lurks with his mistress

Under the waves of a blue lake  
Dwells the mighty Ahti!  
Sailors praise the glorious name  
The ruler of tides: Ahti!

At the shores of a northern land  
Pray mortal men  
Destruction for the arrogant fools  
A reward for humble souls

The great lurker of the seas  
Is pleased of the sacrifice  
The waters are calm  
Today no storm shall rise!

Under the waves of a blue lake  
Dwells the mighty Ahti!  
Sailors praise the glorious name  
The ruler of tides: Ahti!

Foreign ship filled with infidels  
They didn't listen to the northern men  
From a dead calm storm will rise  
And they'll face the wrath of the sea  
Take care that your heir  
Don't turn out too proud  
Or your bloodline will drown into a vast ocean

Under the waves of a blue lake  
Dwells the mighty Ahti!  
Sailors praise the glorious name  
The ruler of tides: Ahti!
